Alessandro Aronica

Junior Full Stack Developer

Motivated professional with expertise in modern web technologies and development frameworks. Specialized in building effective digital solutions with a strong focus on problem-solving and teamwork. Leveraging 10 years of experience in education, I combine solid analytical and communication skills with a constant commitment to technical growth and code quality.

Education

Master in Web Development

EPICODE Institute of Technology | Jun 2025 - Feb 2026

- Frontend Development: Developed responsive Single Page Applications (SPA) using React and JavaScript (ES6+), implementing advanced Async Patterns and Design Patterns for efficient execution.
- Backend & Security: Built robust REST APIs with Node.js and Express, focusing on MongoDB integration and OWASP security standards.
- Full Lifecycle: Managed projects from development to Cloud deployment, utilizing Git and CI/CD workflows to ensure quality and scalability.
