Cefalù, Palermo (Open to relocation & Remote)

Tech Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), React
- Backend: Java, Spring Boot, SQL, JPA, Node.js, Express.js, MongoDB, REST APIs
- DevOps & Version Control: Git, CI/CD, Cloud Deployment
- Security: Authentication & Authorization, OWASP Basics
- Tools & Platforms: Figma, Postman, Trello, NPM, Vercel, Render

Soft Skills

- Methodology: Agile Mindset, Problem Solving, Critical Thinking
- Interpersonal: Team Collaboration, Active Listening, Empathy
- Management: Time Management, Strategic Planning, Organization

Languages

Italian Native

English C1 Advanced
(EF SET Certificate ↗)

German B1 Intermediate

Alessandro Aronica

Junior Full Stack Developer

Motivated professional with expertise in modern web technologies and development frameworks. Specialized in building effective digital solutions with a strong focus on problem-solving and teamwork. Leveraging 10 years of experience in education, I combine solid analytical and communication skills with a constant commitment to technical growth and code quality.

Education and Training

Java Backend Academy (240h)

Itconsulting Srl (Gi Group / Forma.Temp) | Jun 2026 - Jul 2026

- Java Core & OOP: Mastering syntax, object architecture, Java Collections, Lambda expressions, Stream API, and unit testing with JUnit 5.
- Spring Ecosystem: Enterprise development using Spring Boot, Spring MVC architecture, Dependency Injection, and build automation with Apache Maven.
- Databases & REST APIs: Relational database modeling, complex SQL queries (Joins/aggregations), and persistence with Spring Data JPA. Designing RESTful APIs tested via Postman.

Full Stack Open [Certificate ↗]

University of Helsinki | Apr 2026 - Jun 2026

- Advanced deep dive into modern JavaScript/TypeScript-based web development.
- Focus on: React, Zustand, React Query, Node.js, MongoDB, GraphQL, and testing (Vitest, Playwright).
- Study of microservices architecture, containerization (Docker), and CI/CD.

Intro to UI/UX design [Certificate ↗]

Le Wagon | Mar 2026 - Apr 2026

- Figma & Prototyping fundamentals

Master in Web Development [Certificate ↗]

EPICODE Institute of Technology | Jun 2025 - Feb 2026

- Frontend: Built responsive SPAs with React, implementing advanced Async and Design Patterns for optimal performance.
- Backend & Security: Developed REST APIs with Node.js and Express, focusing on MongoDB integration and OWASP standards.
- Full Lifecycle: Managed projects from development to Cloud deployment, utilizing Git and CI/CD for quality and scalability.

AI & Github Copilot Course [Certificate ↗]

Instructor: Silvio Luchetti | Dec 2025 (6 hours)

- Prompt Engineering fundamentals and practical AI applications for software development.
- Professional use of GitHub Copilot and Codeium for code optimization and workflow automation.

Advanced Master & Master's Degree

University of Palermo | 2021 - 2019

- Advanced Master (Level II) in Theory, Design and Teaching of Italian as a Foreign and a Second Language (110/110 Summa Cum Laude)
- Master's Degree in Modern Philology (110/110 Summa Cum Laude)

Work experience

Italian Language Teacher

Various Institutions (including University of Palermo, DILIT Rome, Migros Klubschule Zurich) | 2016 - 2026

- Analysis & Problem Solving: 10 years of international experience simplifying complex logic and resolving educational challenges through strategic planning and needs assessment.
- Organization & Time Management: Successfully managed intensive curricula and strict deadlines in high-pressure environments, ensuring goal achievement through methodical scheduling.
