Cefalù (PA), Italy
(Open to relocation & Remote)

Tech Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, React Native, Zustand, React Query
- Backend: Java, Python, Spring Boot, JPA, Node.js, Express.js, REST APIs, GraphQL
- Databases: SQL, MySQL/MariaDB, PostgreSQL, MongoDB
- Testing: Vitest, Playwright, JUnit 5
- DevOps & Version Control: Docker, Git, CI/CD (GitHub Actions), Apache, Cloud Deployment
- Operating Systems: Linux, iOS, Windows
- Security: Authentication & Authorization, OWASP Basics, CyberSecurity Fundamentals
- Tools & Platforms: Figma, Postman, Trello, NPM, Vercel, Render, Draw.io, GLPi, Znuny

Alessandro Aronica

Junior Full Stack Developer

Profile

Junior Full Stack Developer specialized in both the Java / Spring Boot ecosystem and the MERN Stack (MongoDB, Express, React, Node.js).
After ten years teaching the Italian language in Italy and abroad, about two years ago I chose to pivot into web application development. I bring with me a strong analytical mindset and a methodical rigor developed through years of study and continuous learning.
My training path in IT industry includes the EPICODE Master's program, advanced software architecture studies through the University of Helsinki's Full Stack Open, and an intensive Academy focused on enterprise backend development with Java and the Spring ecosystem.
I have developed a strong passion for technical problem-solving, clean code development, and building functional and secure digital solutions.

Education and Training

Application Systems Specialist Academy (250h)
Yacme (Lavoropiù / Forma.Temp) | Sep 2026 - ongoing
Focus on IT governance, networking, operating systems, and web server creation. Practical experience in container management, system architecture, enterprise collaboration environments, and application monitoring via log analysis and AIOps. Trained in infrastructure security and corporate service desk tools.

Python Intermediate (6h) [Certificate ↗]
EPICODE Institute of Technology | Jul 2026
Deep dive into intermediate Python concepts, advanced data structures, and object-oriented programming. Practical focus on scripting and automation to write clean, efficient code for optimizing development processes and data manipulation.

Java Backend Academy (240h) [Certificate ↗]
Itconsulting Srl (Gi Group / Forma.Temp) | Jun 2026 - Jul 2026
Intensive training program focused on backend development using the Java stack and Spring ecosystem.
The curriculum included daily practical sessions, hands-on labs, and project-based work simulating real-world corporate environments.

Full Stack Open (Parts 0 to 12) [Certificate ↗]
University of Helsinki | Apr 2026 - Sep 2026
Advanced course focused on building modern, scalable web applications, that covers the entire architectural stack from frontend to backend and DevOps practices. The curriculum emphasizes hands-on development through monorepo architecture, secure user administration, and automated test coverage.

Intro to UI/UX design [Certificate ↗]
Le Wagon | Mar 2026 - Apr 2026
Figma & Prototyping fundamentals

Master in Web Development [Certificate ↗]
EPICODE Institute of Technology | Jun 2025 - Feb 2026
The program followed a "learning by doing" approach, bridging the gap between theory and practice through daily coding sessions. The training included weekly individual projects, monthly team collaborations to simulate real-world work environments, and a final Capstone project: a comprehensive, complex web application integrating the full technology stack.

Soft Skills

- Methodology: Agile Mindset, Problem Solving, Analysis and Critical Thinking
- Interpersonal: Team Collaboration, Active Listening, Empathy
- Management: Time Management, Strategic Planning, Organization

Languages

Italian Native

English C1 Avanced
(EF SET Certificate ↗)

German B2 Intermediate

AI & Github Copilot Course (6h) [Certificate ↗]
EPICODE Institute of Technology | Dec 2025

Prompt Engineering fundamentals and practical AI applications for software development.
Professional use of GitHub Copilot and Codeium for code optimization and workflow automation.

Academic Education

University of Palermo

- Advanced Master (Level II) in Theory, Design and Teaching of Italian as a Foreign and a Second Language (110/110 Summa Cum Laude) | 2021
- Master's Degree in Modern Philology (110/110 Summa Cum Laude) | 2019
- Bachelor's Degree in Modern Literature | 2016

Professional Teaching Certifications

- DILS-PG Certification (Level II) in Teaching Italian as a Foreign Language | University for Foreigners of Perugia | 2017
- Dilit International House Diploma for Teaching Italian as a Foreign/Second Language (LS/L2) | Dilit International House Rome | 2022

Work experience

Italian Language Teacher

Various Institutions (including University of Palermo, DILIT Rome, Migros Klubschule Zurich) | 2016 - 2026

My ten-year teaching career has evolved across various international institutions, including the University of Palermo, DILIT Rome, and Migros Klubschule Zurich.

Throughout these experiences, I managed complex educational programs and strategic planning within multicultural environments, developing strong analytical and problem-solving skills by simplifying structured concepts through a methodical approach.
Managing intensive workflows and strict deadlines independently allowed me to constantly optimize processes to achieve specific goals, while strengthening my communication and active listening abilities.
This professional journey has fostered a consistent focus on quality results and a solid capacity for coordinating long-term projects.

I hereby authorize the processing of my personal data in accordance with Legislative Decree 101/2018 and GDPR (EU Regulation 2016/679).
